ISBA 2411 | Assignment Rubric

Santa Clara University | Leavey School of Business

Milestone Assignment Rubric

Assignments 1–4 (the interim milestones) are worth 30% of the course grade — 300 of the 1000 course points, split equally at 75 points each. The same three criteria are applied to every milestone; each is scored 1–5, and earned points scale with that score. The final Team Project (Assignment 5) is evaluated separately using the Team Project Rubric.

Criterion	Weight	Points	5 — Exceptional	4 — Strong	3 — Adequate	2 — Developing	1 — Weak
Execution	53%	40	40 pts — Sound, well-justified method; correct and complete implementation (Brief: compelling, feasible framing).	32 pts — Solid method; implementation mostly correct with minor gaps.	24 pts — Reasonable method; implementation works but with notable gaps.	16 pts — Weak or partial method; implementation incomplete or partly incorrect.	8 pts — Method unsound or implementation missing / non-functional.
Analysis & Insight	27%	20	20 pts — Insightful interpretation; clearly explains what was found and why it matters.	16 pts — Good interpretation; minor gaps in reasoning.	12 pts — Basic interpretation; results reported with limited insight.	8 pts — Minimal interpretation; little reasoning beyond raw results.	4 pts — No meaningful analysis or interpretation.
Communication	20%	15	15 pts — Clear, well-organized; explicit, apt connections to the assigned readings.	12 pts — Clear and organized; some connections to readings.	9 pts — Generally clear; few or weak reading connections.	6 pts — Disorganized or unclear in places; minimal reading connections.	3 pts — Unclear or disorganized; no reading connections.

Each level cell shows the points earned at that score (criterion max × level ÷ 5); Weight is each criterion’s share of the 75-point milestone. Criterion maxima: Execution 40, Analysis & Insight 20, Communication 15 — 75 per milestone; Assignments 1–4 total 300 (30% of the 1000-point course). Companion to the ISBA 2411 syllabus; the final Team Project (Assignment 5) uses the separate Team Project Rubric.
